Swap · *a HPY initiative*

Website & App Playbook v4

Don't Buy. Don't Sell. Just Exchange. India's first exchange marketplace from God's Own Country. v4 adds the three plans, Swap Coins, Women's Circle, the Pro Plus creator studio, calls, ads, events, groups, age rules and the futuristic design.

Purpose
Hand-off for design, development & content

Supersedes
Playbook v3 (as “No Money To Swap”)

How to use this document

Everything in the original strategy has been reviewed, tightened and reorganised so a designer, developer or copywriter can build directly from it. Copy inside the boxed “copy specs” is final, publishable text.

Legend

Marker	Meaning
NEW IN V4	Added in v4: features built into the app and website since v3.
NEW	Not in v1. Added to close a gap.
CHANGED	Rewritten or restructured from v1.
CUT	Removed or merged elsewhere, with the reason given.
COMING SOON	A future feature. Present it as upcoming, never as live.
BUILD NOTE	Instructions for designers and developers. Not shown to visitors.
CONFIRM BEFORE LAUNCH	A claim or policy that may only be published once it is true or has been decided.
`{curly braces}`	Dynamic values filled in by the product, e.g. `{city}`, `{firstName}`.

WHAT'S NEW IN V4

- **Name and owner:** the brand is **Swap**, a HPY initiative. HPY is owned by Hiranya Mohandas. Swap is aligned with Sreejith Maheswar and Sankar R. Ownership is shown on the website only (Part 15).
- **Tagline restored:** “Don't Buy. Don't Sell. Just Exchange.” with the subline “India's first exchange marketplace from God's Own Country.” and “Made with ❤ in Kochi”.
- **Two editions from one build:** the app, and a LinkedIn-style website that adds the Ads Manager and the About/ownership page (Part 15).
- **Three plans:** Free, Pro ₹149 and Pro Plus ₹399 (Part 16).
- **Age rules:** 15+ can sign up. Auctions, paid plans, draws and the creator studio are 18+. Teens can watch live auctions (Part 15).
- **Swap Coins and Women's Circle:** 100 coins per 5-star swap, usable in deals from 1,000, and 150 per swap between two verified Circle members (Part 17).
- **Pro Plus studio and calls:** auctions, free lucky draws, giveaways, challenges, mystery boxes, 2-minute videos, and voice and video calls (Part 18).
- **Community and ads:** events, groups, the Bike & Car category and the Swap Ads platform (Parts 20–21).
- **Futuristic look:** neon cyan and violet on deep space, Orbitron headings and 4-second motion profiles (Part 22).

FOUR DECISIONS THE FOUNDERS MUST MAKE

1. **Launch mode:** working marketplace on day one, or a waitlist site first? v1 left this open. This playbook gives copy for **both** (Part 03), so the choice doesn't hold up design.
2. **Cash in swaps:** can members add money to balance an uneven swap? **Decided in v4: no cash. Use Swap Coins instead** (Part 17). Money appears only in Pro auctions, inside escrow.
3. **Minimum age: Decided in v4: 15+ can join**, with auctions, paid plans, draws and the creator studio for 18+ only. India's DPDP Act 2023 still requires verifiable parental consent for every account under 18, and no tracking or targeted ads for them. See Part 15.
4. **Auctions at launch, or later?** Auctions need a licensed payment partner, escrow, GST set-up and a team to verify items. **Recommended:** launch swapping first, and open Pro auctions in phase 2 once payments and verification are ready.

PART 01

Analysis of v1

v1 is a strong foundation. The positioning is right, the phased roadmap is sensible and the tone is friendly. But it breaks several of its own rules, and it isn't yet ready to build from.

9/10	8/10	5/10	5/10	4/10
Positioning & concept clarity	Phased scope (products first)	Message & CTA consistency	Copy concision (mobile-readiness)	Build-readiness (SEO, legal, states)

What v1 gets right (kept)

- **Positioning:** v1's “Don't Buy. Don't Sell. Just Exchange.” is clear, memorable and sets Swap apart from OLX-style resale.
- **Products first, skills later:** this avoids promising features that don't exist yet.
- **The Have / Want idea:** the best product insight in the document. In v2 it is the centre of the experience.
- **Honest disclaimers:** examples are labelled as illustrative, and estimated values aren't guaranteed.
- **Abundance framing:** the brand is about resourcefulness, not financial hardship.

Issues found, and how v2 fixes them

#	Issue in v1	Fix in v2
1	**Too many slogans.** v1 says “avoid competing slogans”, then uses 10+ (“List It. Match It. Exchange It.”, “Your Stuff. Your Value...”, “More Value. More Possibilities. Less Waste.” and others).	A strict three-line hierarchy: tagline, promise and action line. Each has a defined job, and the rest are retired (Part 02).
2	**Inconsistent CTAs.** 15+ variants for the same action: “Start Exchanging”, “List Something Now”, “Create Your First Listing”, “List a Product”, “Start Your Exchange Journey”...	One CTA system. **List an Item** (primary) and **Explore Exchanges** (secondary) are used everywhere.
3	**The homepage contradicts itself.** Part 3 has 12 sections, but Part 8 recommends a 7-screen journey and warns against a “long article”.	Homepage cut to **8 sections**, with real listings in screen 2 as v1's own UX section advises.
4	**Wordy copy.** The hero has 5 paragraphs. Filler words repeat: “discover” ×32, “opportunities” ×25, “possibilities” ×14, “eligible” ×6.	Hero body cut to one sentence. Word-use limits added to the voice guide. Copy is about 40% shorter overall.
5	**Launch mode unresolved.** The closing question (live vs. coming-soon) blocks every CTA decision.	Both modes written, with a swap table (Part 03).

6	**SEO mismatch.** The homepage targets “barter marketplace India”, but the word “barter” never appears in its copy. Several pages have no meta description, and none has a defined H1.	A full table of title, meta and H1 for every page. Keywords placed in the copy. Schema and technical SEO added (Part 11).
7	**Broken colour codes and accessibility failures.** Hex codes are split across lines (“#19B86 A”). Green on white is 2.6:1, lime on white is 1.1:1 and grey text is 3.8:1, all below the WCAG AA minimum of 4.5:1.	Codes corrected and a contrast-safe palette added: navy text on green buttons, plus a deep green for links (Part 12).
8	**Three separate waitlists** (Skills, Ideas, Community) with different CTAs.	One waitlist with interest checkboxes.
9	**The “Exchange Ideas” page carries IP risk** and is thin content for a feature that doesn't exist.	Removed from launch and folded into the Skills page as a “Later” roadmap item.
10	**Internal notes in public copy**, e.g. the FAQ says “This policy must be confirmed before launch.” Citation residue (“Swap Brand Strategy”) appears mid-sentence.	Public copy and internal notes are now visually separate (Build notes and Confirm flags).
11	**Missing India compliance:** no Grievance Officer, no DPDP consent, no age policy, no prohibited-items list.	Legal page set and compliance checklist added (Part 13). Concrete prohibited items and India-specific scam warnings added to the Safety Centre.
12	**Missing product states:** no copy for declined, countered, expired or withdrawn offers, chat, errors, 404, notifications or emails.	Full microcopy set: 70+ strings (Part 10).
13	**Listing card shows ₹ value prominently**, which undercuts the “Don't Buy. Don't Sell.” promise even though v1 says to put “Looking For” first.	Card spec puts Have/Want first. The value is optional, small and labelled “Approx. value”.
14	**Weak navigation:** “Home” wastes a slot (the logo already links home). Safety, the key trust page, is buried in the footer.	Nav is now Explore · Categories · How It Works · Safety, with a mobile bottom bar built around **+ List**.

PART 02

Brand foundation & messaging rules

These rules keep every page, ad and notification sounding like one brand.

Positioning statement

> **For** students and young professionals in India **who** have useful things they no longer use, **Swap is** the social marketplace **that** lets them swap those things directly for what they actually want, and lets Pro members auction verified items, **unlike** resale apps, where everything starts and ends with price.

Messaging hierarchy: three lines, three jobs

Role	Line	Where it's used
Tagline What we are	**Don't Buy. Don't Sell. Just Exchange.** Subline: India's first exchange marketplace from God's Own Country.	Homepage H1, logo lock-up, app-store subtitle, ads, social bios, footer. RESTORED IN V4
Promise Why it matters	**Everything Has Value.**	About page, brand story, onboarding screen 1, campaign headlines.
Action line What to do	**Got Something? Get Something.**	Final CTAs, empty states, social posts, packaging and print.

> **WHY THE TAGLINE STILL FITS WITH AUCTIONS**
>
> Most of Swap is item-for-item exchange. Auctions are a small, verified, 18+ layer for Pro members, so the brand promise stays about exchange. Never lead an ad with auctions under this tagline; lead with swapping.

> **RETIRED LINES (DO NOT USE)**
>
> “Swap freely. Bid boldly.” (the v3 tagline, retired in v4) · “Discover Yours” · “List It. Match It. Exchange It.” · “Your Stuff. Your Value. Your Next Exchange.” · “Simple. Smart. Rewarding.” · “More Value. More Possibilities. Less Waste.” · “It's Not About Having More Money...” · “Different Needs. Different Products. Endless Possibilities.” · “The Smarter Way to Exchange”. Each is fine on its own, but together they dilute the three lines above.

CTA system

Type	Label	Rule
Primary	List an Item	The supply-side action. New marketplaces live or die on listings, so this is the most prominent button on every page. Green fill, navy text.
Secondary	Explore Exchanges	The browse action. Outline style. Always paired with the primary.
On a swap listing	Offer a Swap	The only primary button on swap cards and swap pages. Teal.
On an auction NEW	Place Bid	Gold. Changes with the format: “Buy Now” (price drop), “Seal a Bid” (sealed), “Bid or Swap” (swap or bid).

In the app NEW	Create	Opens the Create page: offer a swap, ask for something, share a swap (everyone), plus the Pro Plus studio: auction, lucky draw, giveaway, challenge, mystery box, video. V4
Future features	Join the Waitlist	For everything marked Coming soon. One waitlist for all of them.
Text links	See how it works →	For learning more. Never style these as buttons.

Voice & tone

WE SOUND

- **Friendly:** like a smart friend, not a bank.
- **Clear:** short sentences, everyday words, one idea per line.
- **Confident:** "You decide" rather than "Users may be able to".
- **Indian:** local examples (cricket kit, exam guides, Kochi, Pune) and Indian English spelling (colour, centre, programme).
- **Optimistic:** about resourcefulness, never about scarcity.

WE NEVER

- Imply users are broke or "can't afford" things.
- Promise outcomes: "guaranteed", "100% safe", "verified" (until it's true).
- Use legalese in marketing copy ("eligible", "facilitate", "applicable").
- Stack buzzwords ("seamless", "revolutionary", "ecosystem").
- Shame anyone about consumption.

Word list

Use	Instead of	Notes
exchange	trade, deal, transaction	Default verb and noun in the UI.
swap	—	Fine in casual copy, social posts and SEO. Not in buttons.
barter	—	Only in SEO pages, blog posts and explanations ("a modern barter marketplace"). It's a search term, not our UI voice.
item	product	"Product" sounds like retail. Use "item" in the UI. SEO pages may use "products", because people search for it.
member	user, customer, seller	"Swap Traders" is the community name. Use it in community and marketing copy, not in system messages.
approx. value	price, worth, cost	On swaps, never say "price". We don't price swaps.
bid, top bid NEW	offer (on auctions)	"Offer" is for swaps and "bid" is for auctions. Never mix them. "Price" is allowed only on auctions.
Pro NEW	premium, seller account	Always "Pro", in capitals on badges (PRO).
SwapSafe NEW	wallet, payment hold	The name for auction escrow. Use it only once a licensed payment partner runs it.
verified item NEW	certified, guaranteed, authentic	Means our checks passed, not that we guarantee the item.
offer	bid, request	"Make an Offer", "Offer received".

WRITING LIMITS

Per page: “discover” at most twice, “opportunity/possibility” at most once each, “eligible” never in marketing copy. Hero body ≤ 25 words. Section intros ≤ 30 words. Card descriptions ≤ 15 words.

PART 03

Launch modes

v1 ended by asking whether Swap launches as a working marketplace or a waitlist site. The copy in this playbook supports both. Design once, then switch with the table below.

MODE A · LIVE MARKETPLACE

Members can sign up, list, offer and exchange. **Choose this if** the listing → offer → chat → complete flow is built and tested, and at least 300 seed listings exist in the launch city.

MODE B · WAITLIST (PRE-LAUNCH)

The site explains the concept and collects sign-ups by city. **Choose this if** the product isn't ready, or to build launch-day supply ("list your first item early").

RECOMMENDATION

Run **Mode B for 4–8 weeks in one city** (e.g. Kochi, or a single campus cluster), and invite waitlisters to **pre-list items**. Switch to Mode A when the city reaches your seed-listing target. An exchange marketplace with empty shelves loses visitors permanently. A waitlist with momentum builds trust.

PART 05

Homepage: final copy

Eight sections instead of twelve, in the order of v1's own recommended user journey: explain → show → guide → reassure → act. Everything above the fold must work on a 360 px phone.

#	Section	Visitor question it answers	From v1
1	Hero	What is this?	S1, tightened
2	Live exchanges	Is anyone actually here?	S5 + S7 merged
3	How it works	How hard is it?	S3, 4 → 3 steps
4	Categories	Can I exchange my stuff?	S4 + S9 teaser
5	Why exchange	Why not just sell it on OLX?	S2 + S6 merged
6	Fair exchange	How is value decided?	S8, shortened
7	Safety	Can I trust strangers?	S10
8	Final CTA	OK, what now?	S11 + S12 merged

Section 1: Hero — ABOVE THE FOLD

EYEBROW	INDIA'S MODERN BARTER MARKETPLACE
H1	**Don't Buy. Don't Sell. Just Exchange.**
SUBHEAD	Trade the things you no longer use for things you actually want, directly with people near you.
SEARCH	Placeholder: *What do you want? Try "cycle" or "guitar"* + location chip: *{city}* ▾
CTAS	List an Item · Explore Exchanges
MICROLINE	✓ Free to join ✓ No buying or selling ✓ You decide what's fair
VISUAL	An animated Have/Want card: **I HAVE** Bicycle ⇄ **I WANT** Guitar, cycling through 3–4 pairs. Caption: *Two people. Two things. One fair exchange.*

CONFIRM BEFORE LAUNCH

Use "Free to join" only once the pricing policy is final. If it isn't, use "Exchange on your terms" instead.

BUILD NOTE

"Barter" is in the eyebrow on purpose. It puts the main SEO keyword near the H1 without breaking the tagline. Mode B: swap the CTAs and microline as in Part 03.

Section 2: Live exchanges	DYNAMIC
EYEBROW	FRESH ON SWAP
H2	**See what people near you want to exchange**
CONTENT	8 most recent listings within 25 km of {city}, as Have/Want cards (spec in Part 12). Horizontal scroll on mobile, 4-column grid on desktop.
LINK	Explore Exchanges
FALLBACK	If there are fewer than 8 listings nearby, show example cards with an **"Example"** badge. Heading: **"Exchanges waiting to happen"** Old smartphone ⇄ Bicycle · Textbooks ⇄ Headphones · Guitar ⇄ Camera · Study table ⇄ Dumbbells Footnote: *Examples only. Real exchanges depend on what members list.*

Section 2b: Live auctions NEW	DYNAMIC

STEP 1	**List what you have.** Add a few photos, the condition, and what you'd like in return.
STEP 2	**Make or get an offer.** Found something you like? Offer one of your items. Or let offers come to you.
STEP 3	**Agree and exchange.** Chat, settle the details, meet up and swap. Then rate each other.
CTAS	List an Item · See the full guide →

Section 4: Categories	GRID

Join the waitlist
LINK	View all categories →

BUILD NOTE

Each card shows a live count: “{n} items near you”. Hide the count below 5 so empty categories don't look empty. Kids & Toys was added because families are a stated secondary audience. Exclude car seats, cribs and other safety-critical baby items (see Prohibited Items).

Section 5: Why exchange	4 BENEFITS
H2	**Why exchange instead of sell?**
BENEFIT 1	**Get what you want, without spending on it.** Your unused things become your currency.
BENEFIT 2	**Clear the clutter, usefully.** The phone in your drawer is exactly what someone is looking for.
BENEFIT 3	**Your terms, always.** You choose what to offer and what to accept. Nothing happens unless you both agree.
BENEFIT 4	**Less waste.** Every exchange keeps a good thing in use and out of a landfill.

Section 6: Fair exchange	OBJECTION HANDLER
H2	**Who decides what's fair? You both do.**
BODY	There are no price tags on Swap. Condition, usefulness and how much you want something all count. Ask questions, compare details and agree when it feels right to both of you.
SMALL PRINT	Approx. values, where shown, are a guide only. They are not a price or a guarantee.

FUTURE SLOT

When ValueMatch (smart value matching) launches, add a line here: “Not sure? ValueMatch suggests fair exchanges based on similar items.”

Section 7: Safety	TRUST
H2	**Exchange with confidence**

TIPS	**Check the details** Read the description, study the photos, ask questions. **Keep chats on Swap** It keeps a record and your number stays private. **Meet somewhere public** Daylight, busy places, and test items before you swap. **Report anything off** One tap flags a listing or member to our team.
LINK	Visit the Safety Centre →
DISCLAIMER	Exchanges are agreed between members. Swap can't guarantee every item or outcome. That's why we share these tips.

CONFIRM BEFORE LAUNCH

Mention **verified members**, **ratings** or **dispute support** only once each is live. When verification launches, add the tip: “Look for the ✓ Verified badge”.

Section 8: Final CTA	CLOSE

Five steps	NUMBERED LIST WITH ILLUSTRATIONS
1 · JOIN	**Create your free account.** Sign up with your mobile number or email. Add a photo and your city so members know who they're exchanging with.
2 · LIST	**List what you have.** Add: • 3–6 clear photos (natural light, show any wear) • A title, category and condition • A short, honest description • What you'd like in return, or tick *Open to offers* • Approx. value (optional)
3 · EXPLORE	**Find what you want.** Search or browse by category and distance. Turn on *Matches for me* to see members who want what you have.
4 · OFFER	**Make an offer.** Choose one of your listed items, add a friendly note and send. The other member can accept, decline or suggest something else.
5 · EXCHANGE	**Agree, meet, swap.** Confirm the details in chat, meet somewhere public, check the items, and exchange. Then mark it complete and rate each other.

Good to know	ACCORDION
COSTS	The exchange itself is free. If you agree to courier an item, you and the other member decide who pays.
CHANGED MIND?	You can withdraw an offer until it's accepted. After that, talk to the other member first.
NOT ALLOWED	Illegal, stolen, counterfeit, unsafe or adult items. See the full list.
PRO TIP	Listings with 4+ photos and a clear “I want” get noticeably more offers.

WHY THE "WANTS SOMETHING I HAVE" FILTER MATTERS

It turns v1's Have/Want idea into a product feature. It surfaces *mutual* matches, which is the hard part of any barter system (the "double coincidence of wants"). It's also the clearest difference from resale apps.

Category page template /categories/{slug}

Template + 3 examples	SEO LANDING
H1	Exchange {category} near you
INTRO (40–60 WORDS)	**Electronics:** Swap your old phone, laptop, headphones or camera for something you'll actually use. Browse electronics listed by members near you, see what each owner wants in return, and make an offer. Always test devices before you exchange, and factory-reset your own first. **Books & Study:** Finished with last semester's textbooks? Exchange them for the ones you need next, or for headphones, a cycle or anything else on your list. Students across India are swapping books, exam guides and study gear on Swap. **Home & Furniture:** Moving, upgrading or just making space? Exchange tables, chairs, shelves and appliances with people nearby. Large items are easiest to exchange locally, so filter by distance and agree on pick-up in chat.

HOW IT'LL WORK	Both members agree on clear deliverables, timelines and what "done" looks like before anyone starts.
LATER	Further ahead, we're exploring exchanges of defined creative and expert work, such as consulting sessions and learning materials. These will need clear agreements on ownership and confidentiality.

WHY "EXCHANGE IDEAS" WAS CUT

Inviting people to "exchange ideas" on a public site encourages them to post unprotected concepts. That leads to IP disputes and confidentiality claims, and posting an idea gives it no legal protection. It also adds a third "future" page that dilutes the launch message. Reconsider it only with proper legal terms (NDAs, assignment clauses) in place.

About Us /about

About page	PAGE
H1	**Everything has value.**
SUBHEAD	Even the things you've stopped using.
OUR STORY	Every home in India has them: the phone in the drawer, the cycle on the balcony, the textbooks from last year. Meanwhile, someone a few kilometres away is about to buy exactly those things new. Buying and selling has always been the only way to connect them. We asked a simple question: **why not just exchange?** Swap is our answer, a marketplace where the first question isn't "How much?" but "What would you take for it?"
MISSION	Make exchanging things as easy as buying them.

VISION	An India where exchanging is a natural, trusted alternative to buying, and nothing useful goes to waste.
WHAT WE BELIEVE	**Everything has value** What you don't need is exactly what someone else wants. **Fair means both sides** A good exchange leaves two people happy. **Trust is earned** Honest listings, clear chats and real accountability. **Small choices add up** Every exchange is one less thing bought new.
WHERE WE'RE HEADED	**Now:** item-for-item exchanges → **Next:** skills & services, smart matching → **Later:** multi-item exchanges, more cities
TEAM NEW	Founder photos, names, one line each and home city. *"Built in {city} by people who had too many old phones."*
CTA	**Join the Swap Traders.** List an Item

BUILD NOTE

Real faces are the single biggest trust signal for a new marketplace. Don't launch the About page without the team section.

H1	**Exchange smart. Exchange safely.**
INTRO	Most exchanges go smoothly. A few simple habits make sure yours does too.
BEFORE	**Read the listing properly.** Check photos, age, condition and any defects. **Ask anything.** Unclear? Ask before you agree. Honest members don't mind. **Check the profile.** Look at member since, completed exchanges and ratings. **Agree on value together.** Approx. values are a guide. What matters is that you both feel it's fair.
DURING	**Confirm in chat.** Write down exactly what's being exchanged, when and where. **Meet in public.** A café, mall, metro station or campus gate, in daylight. Bring a friend for high-value items. **Test before you swap.** Switch devices on, check accessories, try bikes and instruments. **For phones and laptops:** check the IMEI or serial number, ask for the bill if available, and make sure it's logged out of all accounts.
AFTER	**Mark it complete** and **leave an honest rating**. It helps the next person. Something went wrong? **Report it** within 7 days.

Spot a scam	NEW	INDIA-SPECIFIC RED FLAGS
INTRO	**Stop and report** if anyone:	
RED FLAGS	× Asks for an **OTP**, password or UPI PIN. Swap will never ask for these. × Sends a **UPI "collect" request or QR code**. Scanning a QR code is for *paying*, never for receiving. × Asks for a **"courier fee", "deposit" or "verification charge"** before the exchange. × Pushes you to **move to WhatsApp** or another app straight away. × Won't meet, won't show the item on a video call, or creates **urgency** ("someone else wants it, decide now"). × Offers something that seems **too good to be true**, e.g. a new iPhone for an old textbook.	
HELP	Report in-app: ··· → **Report**. Cyber fraud: call the National Cyber Crime Helpline **1930** or visit **cybercrime.gov.in**. Emergency: **112**.	

What can't be exchanged	SUMMARY. FULL LIST AT /PROHIBITED-ITEMS
INTRO	Keep it legal and safe. These items aren't allowed on Swap:
LIST	Weapons, ammunition and explosives · Drugs, medicines and medical devices · Alcohol, tobacco and vapes · Stolen or counterfeit goods · Live animals and wildlife products · Adult content · Hazardous or recalled items · Car seats, cribs and other safety-critical baby gear · Government IDs, SIM cards and financial instruments · Vehicles and property (at launch) · Digital accounts, gift cards and vouchers
CTAS	**Report an Issue** Community Guidelines →
DISCLAIMER	Swap connects members. Exchanges are agreed and completed between them. We can't guarantee every member, item or outcome, but we act on every report.

CONFIRM BEFORE LAUNCH

Have counsel review the prohibited list. Decide on vehicles: they require an RC transfer, so they are excluded at launch. "We act on every report" and the 7-day reporting window need an operational owner and SLA.

PART 07

The social app NEW

The app works like a social network where every post is something to swap or bid on. People come back for the feed, and stay because it finds them matches.

App sections

Section	Job	Key elements
Home feed	Daily reason to open the app	Stories row · post box ("Swap it, ask for it, or auction it...") · tabs: For you, Auctions, Nearby, Following
Stories	Quick, 24-hour updates	Each story shows Has ⇄ Wants. A red LIVE ring marks a live auction and opens it in one tap. Replies go to chat.
Auction House	Where buyers browse auctions	LIVE NOW banner · filters by format · cards with countdown timers · "Seven ways to sell" explainer
Swipe	Fast matching	Card stack. Right = offer a swap, left = pass, ★ = save. A teal badge shows when the owner wants one of your items.
Explore	Search	Search box, category chips (incl. Bike & Car V4), a grid of swaps and auctions
Messages	Agree the details	Swap offers appear as cards with Accept / Decline · quick replies · safety banner · scam-word warning · 📞 voice and 🎥 video calls for Pro Plus V4
Notifications	Pull people back	New offers, matches, outbid alerts, auction ending, follows, ratings
Profile	Trust	4-second motion picture and cover V4 · verified tick · PRO badge · Swap Coins card V4 · Women's Circle badge (opt-in) · trust score · swaps, rating, followers · tabs: Has / Wants / Reviews
Pro studio	Selling tools	Plans, your auctions, bids, watchers, top bids total, how auctions work
Create V4	One place to post	Everyone: swap, ask, share a swap. Pro Plus studio: auction, lucky draw, giveaway, challenge, mystery box, video (Part 18)
Coins V4	Reward good swaps	Balance, unlock meter, activity log, Women's Circle (Part 17). Also on your profile and in the top bar.
Draws V4	Free fun, 18+	Weekly free draw, business giveaways, skill quiz, mystery box swaps (Part 19)
Events & Groups V4	Community	Swap meets, fairs, live auctions; topic groups like Kochi Riders Swap (Part 20)

Post types

Type	What it shows	Button
📷 Swap	Photo, Has ⇄ Wants strip, condition, distance, approx. value (optional)	Offer a Swap

🔍 Request	“Looking for” card plus what they can offer	I Have This
🔨 Auction PRO	Photo, Verified badge, gold bid bar (top bid · bids · ends in), format, watchers	Place Bid
🎉 Swap done	Both people, both items, star rating	🎉 Congrats
🛡️ Tip	Official safety or how-to tips	—
🎟️ Draw · 🎁 Giveaway · 🏆 Challenge · 📦 Mystery box PRO+ V4	Gold-edged promo card: prize, how to enter, entries, ends in, “Free to enter” (or “Swap only, no payment” for boxes)	Enter free
🎬 Video PRO+ V4	Up to 2:00, with player controls and a duration chip	—

Every post supports like (double-tap the photo), comment, share to WhatsApp, and save (called “Watch” on auctions).

Trust score

A score from 0 to 100 on every profile, built from things members can check. Example weighting:

Signal	Weight
Verified phone and ID	25
Completed swaps and auctions	25
Average rating (last 20 deals)	25
Reply rate and on-time meet-ups	15
No upheld reports in 90 days	10

CONFIRM BEFORE LAUNCH

Show the trust score only once every input is real and the formula is published in Help. Never let money buy trust points: Pro membership must not raise the score.

PART 08

Pro & auctions NEW

Swapping stays free for everyone. Pro and Pro Plus members (18+) can bid on and sell **verified** items by auction, with payment held in SwapSafe escrow. Teens can watch live auctions but can't bid or sell.

Who can do what

Action	Free	Pro	Pro Plus
Swap, request, chat, swipe, stories, watch auctions	✓	✓	✓
Bid on auctions (18+, verified phone)	—	✓	✓
Sell by auction (verified items only)	—	3 / month	Unlimited
Auction formats	—	3	All 7
Auto-bid, seller analytics, boosted posts	—	—	✓
Creator studio and voice / video calls V4	—	—	✓

Plans (example pricing)

Plan	Price	Includes
Free	₹0	Swaps, requests, stories, chat, swipe matching, events, groups, Swap Coins. Watch auctions.
Pro PRO	₹149 / month	Everything in Free, bid on every auction, sell up to 3 auctions a month in 3 formats (Classic, Reserve, Bid or Buy Now), verified-item badge. 5% fee only when an item sells.
Pro Plus PRO+	₹399 / month	Everything in Pro, unlimited auctions in all 7 formats, auto-bid, seller analytics, boosted posts, priority verification, the creator studio (Part 18), voice and video calls. 3% fee when an item sells.

CONFIRM BEFORE LAUNCH

Prices, any trial, and the 5% / 3% fees are example pricing. Paid plans are 18+ only. Test them with real sellers. GST applies to both the subscription and the fee.

Item verification (required before an auction goes live)

1. **Proof of purchase:** a bill, invoice or order screenshot.
2. **Serial number or IMEI** for electronics, cameras and watches. Check IMEI against the government CEIR blacklist.
3. **Ownership statement:** the seller confirms the item isn't stolen, counterfeit or prohibited.
4. **Photo check:** our team compares the listing photos with the documents.

Badge copy: "✓ Verified item". Help text: "Our team checked the documents and photos. This isn't a guarantee of condition."

Seven bidding formats

Format	How the winner is decided	Seller sets
🔴 **Live drop**	10-minute live auction. Highest bid when the timer ends.	Starting bid, increment
⬆️ **Classic**	Highest bid when the timer ends.	Starting bid, increment, 1 hour to 7 days
🔒 **Reserve**	As Classic, but it sells only if the hidden reserve is met. Shows "Reserve met / not met".	Starting bid, reserve, increment
✉️ **Sealed bid**	One secret bid each. The highest is revealed and wins at the end.	Minimum bid, end time
⬇️ **Price drop**	The price falls by a set step every few minutes. The first person to tap "Buy now" wins.	Start price, floor, drop step
⚡ **Bid or Buy Now**	Classic, plus a fixed Buy Now price that disappears once bids reach it.	Starting bid, Buy Now price, increment
⇄ **Swap or Bid**	Bidders offer cash or one of their items. The seller picks the winner.	Starting bid, increment, wanted items

Bidding rules

- **Bids are binding.** A winner who doesn't pay gets a strike. Three strikes block bidding.
- **Anti-sniping:** any bid in the last 2 minutes adds 2 minutes to the timer.
- **Auto-bid:** buyers set a private maximum, and the app bids one increment at a time on their behalf.
- **Increments:** default to about 5% of the starting bid, rounded to ₹50.
- **No shill bidding:** sellers and their linked accounts can't bid on their own auctions.
- **Outbid alerts:** sent by push straight away, and again 15 minutes before the end if the member is watching.
- **Bid history** is public (handle, amount, time), except in sealed auctions.
- **No cash outside the app.** Paying off-platform means no protection and leads to account removal.

SwapSafe escrow flow

#	Step	Deadline (example)
1	Auction ends. The winner is notified: "🎉 You won! Pay into SwapSafe to complete."	—
2	The winner pays through UPI or card. The money is held by the licensed payment partner, not paid to the seller.	Within 24 hours
3	Hand-over in person, or the seller ships with tracking.	Within 3 days
4	The buyer taps "Item received as described", or opens a dispute.	Within 48 hours of delivery
5	The seller is paid, minus the 5% fee. If the buyer doesn't respond, the money is released automatically.	Next working day

DISPUTE PATH

The buyer uploads photos → the seller responds within 48 hours → our team decides (refund, return, or release) within 5 working days. Publish this flow in the Auction rules page before launch.

PART 09

FAQs (rewritten)

Grouped into five topics, with plain answers and no internal notes. NEW marks questions v1 missed. Mark up with FAQPage schema.

The basics

Question	Answer
What is Swap?	An online marketplace where you exchange things you don't use for things you want, directly with other people. No buying, no selling.
How is this different from OLX or Quikr? NEW	On resale apps you sell for money, then spend it. On Swap you skip the money and swap directly. Every listing shows what the owner *has* and what they *want*, so you can spot a match instantly.
Is it free?	Yes. Joining, swapping, browsing, chatting and earning Swap Coins are free. Pro (₹149 / month) adds bidding and a few auctions; Pro Plus (₹399 / month) unlocks everything. Both are optional and 18+.
Who can join? NEW	Anyone aged 18 or over in India with a valid mobile number or email.
Which cities is Swap in? NEW	We're starting in {launch cities}, but you can list and browse from anywhere in India. The more people near you who join, the more matches you'll find.

Listing & offers

Question	Answer
What can I list?	Most everyday items: electronics, furniture, books, sports gear, fashion, hobbies, kids' items and more. A few things aren't allowed. See Prohibited Items.
What if I don't know what I want in return? NEW	Tick *Open to offers*. Members will suggest items, and you choose whether any of them works for you.
How do I make an offer?	Tap **Make an Offer** on any listing, choose one of your items, add a note and send. You'll be notified when they reply.
Can I cancel an offer?	Yes, any time before it's accepted. Once it's accepted, talk to the other member in chat before changing plans.
Can I exchange several items for one?	Not yet. Multi-item exchanges are on our roadmap. For now, each offer is one item for one item.

Value & costs

Question	Answer
How do we decide if an exchange is fair?	You decide together. Approx. values can help, but condition, usefulness and how much you each want the item matter just as much. If it doesn't feel fair, don't agree. There's always another match.
Can I add cash to balance a swap? NEW	No. Swaps are item-for-item. Cash is only used in Pro auctions, and always through SwapSafe escrow.
Are there any costs at all?	The exchange is free. If you choose to courier an item, the two of you agree on who pays for delivery.

Can I exchange with someone in another city?	Yes, as long as you both agree on how the items will travel and who pays. Local exchanges are simpler and let you check items in person.
Is exchanging legal in India?	Yes. Exchanging your personal belongings is legal. If you exchange regularly as a business, GST and other rules may apply, so check with a tax adviser.

CONFIRM BEFORE LAUNCH

"Is it free?", "Who can join?" and "Can I add cash?" depend on the four founder decisions on page 2. The legal and tax answer must be reviewed by counsel or a CA.

Safety & problems

Question	Answer
Is it safe?	Most exchanges go smoothly, and like meeting anyone new, a little care goes a long way. Chat on Swap, meet in public, test items first and follow our safety tips.
Is my phone number shown to others? NEW	No. Members talk through Swap chat. You choose whether to share your number.
What if I get something different from what was promised?	Report it from the exchange page within 7 days, with photos and chat details. We'll review it and may warn, suspend or remove the other member.
What if someone doesn't show up? NEW	Message them in chat first. If they've disappeared, cancel the exchange and report them. Repeated no-shows lead to account restrictions.
Does Swap handle delivery?	Not yet. Members arrange handovers themselves. We're exploring delivery partners for the future.

Auctions & Pro NEW

Question	Answer
Who can sell by auction?	Pro members, and only items that pass verification: proof of purchase, a serial number or IMEI where there is one, and a photo check.
Which auction formats are there?	Seven: Live drop, Classic, Reserve, Sealed bid, Price drop, Bid or Buy Now, and Swap or Bid. Each listing shows its format.
Can I cancel a bid?	No. Bids are binding, so only bid what you're ready to pay.
What is SwapSafe?	Escrow for auctions. Your payment is held safely until you confirm the item arrived as described. Then the seller is paid.
What if the item isn't as described?	Open a dispute within 48 hours of delivery. Your money stays in SwapSafe while our team reviews it.
Why did the timer go up?	A bid in the last 2 minutes adds 2 minutes, so everyone gets a fair chance to respond.

Coming soon

Question	Answer
Can I exchange skills or services?	Soon! Skills & Services is our next big feature. Join the waitlist to be among the first to try it.
Is there an app? NEW	{Yes: download links} / {Not yet. Swap works on any phone browser, and you can add it to your home screen.}

BUILD NOTE

Each page's H1 is given in Parts 05–06. Use exactly one H1 per page. The homepage H1 is the tagline, so the keyword goes in the title tag and eyebrow.

Technical SEO checklist NEW

- **Schema:** Organization + WebSite (with SearchAction) on home. FAQPage on /help and category pages. BreadcrumbList site-wide. ItemList on /explore.
- **Listings:** don't use Product schema with prices, because it contradicts the brand and fails rich-result rules. Use `noindex` on expired listings and return 410 for deleted ones.
- **City pages** (`/exchange/{city}`): create only once a city has 50+ live listings. Empty programmatic pages hurt rankings.
- **Mode B:** keep Explore and Categories `noindex` until live.
- **Core Web Vitals:** LCP < 2.5 s on 4G. Serve WebP/AVIF listing images at multiple sizes. Lazy-load below the fold.
- **Open Graph:** listing shares render as a Have/Want card image, which turns every WhatsApp share into an ad.
- **Language:** start in English. Add Hindi and Malayalam later with `hreflang`. The suggested heading font supports Devanagari.
- **Validate keywords** in Google Keyword Planner or Search Console before committing. v1's list is a starting hypothesis, not measured volume.

Each article: 900–1,400 words, one H1, a real exchange example, a mid-article Have/Want card, an end CTA and 2 internal links. Changes from v1: #1 is reworded to match how people actually search, #3 becomes “weekend” (more actionable), and #8 adds the India-specific scam angle.

PART 12

Design system & UX rules

Colour palette: futuristic neon CHANGED IN V4

v4 moves from champagne-and-teal glass to a futuristic look: deep space, neon cyan, electric violet and hot pink, with glowing edges and a moving grid horizon. The app is still dark by default with a light theme. Each colour keeps one job.

Colour	Dark / light hex	Role	Usage rule
Deep Space	`#04050D` / `#E9EEF8`	Background	Page background behind the grid and glows.
Ice	`#EAF6FF` / `#161A2B`	Text	Main text: 18:1 on Deep Space ✓.
Neon Cyan	`#3DF5FF` / `#0096B4`	Swaps	Swap buttons, the ⇄ mark, match badges, active nav glow. Text on cyan is `#00151A`. Cyan text on light uses `#006B80`.
Solar Gold	`#FFC857` / `#E0A526`	Bids, Pro & coins	Bid bars, PRO badges, Create button, Swap Coins. Text on gold is `#1A1000`. Gold text on light uses `#8A5A00`.
Electric Violet	`#8B5CF6` / `#6D3CE0`	Atmosphere	Glows, gradients, the logo mark. Never for body text.
Hot Pink	`#FF4FD8` / `#D428A8`	Circle & alerts	Women's Circle, unread dots, mystery boxes.
Live Red	`#FF3B6B` / `#E0234F`	Live	LIVE pills, last 5 minutes of a countdown, end-call button.
Steel	`#9AA8C7` / `#565C75`	Secondary text	8:1 on Deep Space ✓.

> **COLOUR RULE**
>
> **Gold means money and coins, cyan means swap.** Never use gold on a swap action or cyan on a bid action.

Futuristic style rules V4

- **Panels:** blue-tinted glass (6% dark, 52% light), 22 px blur, a 1 px cyan-tinted border and a faint outer glow. Panels brighten their border on hover.
- **Background:** violet, cyan and pink glows, a perspective grid that scrolls towards the viewer, and a very faint scan-line texture.
- **Glow:** neon glow on the active nav item (with a cyan-to-violet bar), primary buttons, LIVE pills, meters and coin chips.
- **Gradient text:** the Swap wordmark and page headings use an ink-to-cyan-to-violet gradient. Headings are uppercase with wide spacing.
- **Logo mark:** a conic cyan-violet-pink gradient tile that slowly shifts hue.
- **Motion:** every animation stops when the device asks for reduced motion.
- **Legibility:** labels on photos and covers sit on a dark frosted chip. Never put text on a glow or the grid.
- **Fallback:** if blur is unsupported, panels become solid Deep Space or the light background.

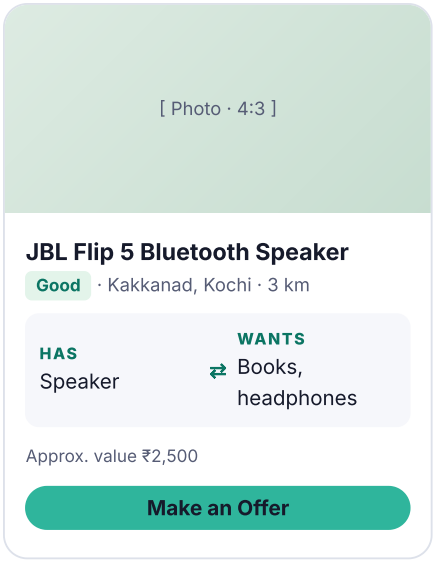

Typography CHANGED IN V4

Use	Font	Why
Display & numbers	Orbitron 500–800	A geometric, techno face for the wordmark, headings, prices and coin balances. Use it for short text only.

Body & UI	Manrope 400–800	A clean, modern sans that stays readable at small sizes on phones.
Regional (later)	Noto Sans Malayalam / Devanagari	For localisation. Pair them with Manrope's sizes.

Mobile scale: H1 32/36 · H2 22/28 (uppercase, +6% tracking) · H3 18/24 · Body 15–16/24 · Small 13/18. Form fields stay at 16 px or above, so iOS doesn't zoom in.

The signature component: Have/Want listing card

Card rules

1. **Hierarchy:** photo → title → condition and distance → **Has ⇄ Wants** row → value → button.
2. The **Wants** row is the visual hero: tinted panel, bold labels. If "open to offers" is on, show "Open to offers ✨".
3. **Approx. value** is optional, 11–12 px, Mist Grey, never bold, never larger than the Wants text. Hide it if empty.
4. **Match badge:** if the viewer owns an item in the Wants list, show a teal "✨ Wants your {item}!" badge on the photo. This is the most persuasive element in the product.
5. Show the area, not the exact address. Round distance to whole km.
6. One button only. Tapping the card opens the detail page.

UX rules

- **Listing in under 2 minutes:** camera first, auto-suggest the category from the title, one screen, and save drafts automatically.
- **Let people browse before sign-up**. Ask for login only at List / Offer / Chat.
- **Phone OTP sign-up** as the default. Google sign-in second.
- **One primary button per screen.**
- **Touch targets** ≥ 44 × 44 px. Sticky "Make an Offer" on listing pages on mobile.
- **Designed for low bandwidth:** image placeholders, skeleton loaders and a usable page within 3 s on 4G.
- **Share to WhatsApp** on every listing and every match. This is the main growth loop in India.
- **Accessibility:** alt text on listing photos (prompt the lister), visible focus states, labels on all form fields, and never use colour alone to show meaning.
- **Illustrations** over stock photos for concept sections. Real listing photos for marketplace sections.

PART 13

Legal, policy & launch checklist

This checklist is not legal advice. It lists what Indian counsel should review before the site goes live. v1 noted that legal review is needed. This makes it concrete.

Pages that must exist at launch

Page	Must cover
Terms of Use	Swap's role as an intermediary, member obligations, prohibited conduct, dispute process, liability limits, account suspension, governing law and jurisdiction.
Privacy Policy	DPDP Act 2023: what data is collected (phone, location, photos, chats), purpose, consent and withdrawal, retention, Data Protection Officer or contact, and user rights (access, correction, erasure).
Prohibited Items	The full list (summary in the Safety Centre) plus what happens to violating listings.
Community Guidelines	Honest listings, respectful chat, no-show policy, rating integrity, and the consequences ladder (warning → restriction → ban).
Grievance Officer	Name, contact and response timelines under the IT (Intermediary Guidelines) Rules 2021 and, if applicable, the Consumer Protection (E-Commerce) Rules 2020.
Auction Rules NEW	Binding bids, anti-sniping, auto-bid, shill-bidding ban, strikes, verification, escrow timelines, disputes, fees and refunds.
Pro Terms & Refunds NEW	Subscription price, trial, renewal, cancellation, GST, and refunds under the Consumer Protection (E-Commerce) Rules.
Cookie notice	Consent banner for analytics and marketing cookies.
Draw & Giveaway Rules V4	Free entry only, 18+, how winners are picked and announced, prize delivery, host obligations, no purchase or coins to enter (Part 19).
Swap Coins Terms V4	How coins are earned and used, no cash value, can't be bought, sold or transferred for money, expiry, misuse and clawback (Part 17).
Advertising Policy V4	Ad review, “Sponsored” labels, prohibited ad categories, ASCI code, no ads to under-18s (Part 21).
Parental Consent V4	How 15–17-year-olds' parents or guardians give verifiable consent under the DPDP Act, and what teen accounts can do (Part 15).

PAYMENTS & AUCTIONS: EXTRA COMPLIANCE (PHASE 2)

- **Never hold buyers' money yourself.** Use an RBI-authorised payment aggregator with an escrow or nodal-account product to run SwapSafe.
- **Tax:** GST on the Pro subscription and the success fee. As an e-commerce operator, you may also need to collect TCS under GST and deduct TDS under the Income-tax Act on sellers' payouts. Confirm the current rates with a CA.
- **Consumer Protection (E-Commerce) Rules 2020:** show seller details, the total price and the refund policy, and run the grievance process for auction buyers too.
- **Know your seller:** Pro sellers need verified ID and bank details (PAN above set limits) before their first payout.
- **Keep auctions chance-free:** no paid entries and no “mystery” lots in auctions. Mystery boxes exist only as swaps with a declared minimum value (Part 18), so nothing could be read as gambling.

Claims gate: say it only when it's true

Claim in copy	Publish only when…
“Free to join” / “Is it free? Yes”	The pricing policy is final and documented.
“Verified members”, ✓ badge	A verification process exists (e.g. phone + ID) and is described.
Ratings and reviews	The two-way rating system is live.
“Near you”, distance filters	Location services work and protect privacy (area only).
“Matches for me”, match badge	Matching logic is built and tested.
“✓ Verified item”	A team actually checks documents, IMEI and photos for every auction.
“SwapSafe escrow”, “your money is held safely”	A licensed payment partner holds the funds, and the release and dispute flow is live.
Trust score	Every input is real and the formula is published in Help.
Pro price, trial, “5% only when it sells”	Pricing is final and the Pro Terms page is live.
“We review reports within {X} hours”	A moderation team or owner and an SLA are in place.
Counter-offers (“Suggest another item”)	The feature exists. Otherwise remove the link.
Delivery, ValueMatch, Skills	Launched. Until then, label them “Coming soon” or remove them.
“150 coins with Circle members”, Circle badge V4	Selfie + ID verification is live, the ID image is deleted after checking, and the badge is opt-in.
“Swap Coins as a digital currency” V4	**Never**, until regulators allow it. Keep it to “Coming in the future. Stay tuned.” with no dates, returns or exchange rates.
“Free to enter”, draw winners V4	Entry truly needs no payment, purchase or coins, and winners are picked by an auditable random draw.
“{n} items near you”, member counts	The numbers are real and live. Never inflate or invent them.
“Listing takes 2 minutes”, “4+ photos get more offers”	Measured in your own data.

Pre-launch checklist

Content

- ☐ Founder decisions made: launch mode and auction timing (cash in swaps and age decided in v4)
- ☐ Placeholders {…} replaced site-wide
- ☐ Team section with real photos on the About page
- ☐ Example listings labelled “Example”
- ☐ Retired slogans removed; CTA labels match Part 02
- ☐ Proofread in Indian English

Legal

- ☐ All six legal pages reviewed by counsel
- ☐ Grievance Officer appointed and published

Product & trust

- ☐ Auctions (phase 2): payment partner live, escrow tested, verification team trained
- ☐ Report flow tested end to end, with a named moderator on duty
- ☐ Prohibited-keyword filter on listings
- ☐ Chat scam-word warning is live
- ☐ 300+ seed listings in the launch city (Mode A)
- ☐ All empty states and errors use Part 10 copy
- ☐ v4: teen gates tested (auctions, plans, draws, studio, calls, no ads)

- ☐ Date of birth at sign-up: 15+ to join, verifiable parental consent for 15–17, 18+ gates on auctions, plans, draws and studio
- ☐ Consent logs for marketing; SMS DLT templates registered
- ☐ Trademark search and filing for “Swap” (Class 35); the plain word may need a distinctive mark, e.g. the Swap logo or “Swap by HPY”
- ☐ v4: calls run on a vetted WebRTC provider, with in-call report and block
- ☐ v4: video uploads limited to 2:00 and run through moderation

SEO & analytics

- ☐ Titles, metas and H1s match Part 11
- ☐ Schema validated in Rich Results Test
- ☐ Search Console and sitemap.xml submitted
- ☐ Funnel events tracked: visit → sign-up → first listing → first offer → first completed exchange
- ☐ North-star metrics agreed: **completed swaps per week** and, once auctions launch, **auctions sold per week**

PART 14

Brand copy kit

Ready-to-paste descriptions at every length, for app stores, press, social and partners.

Descriptions	BY LENGTH
ONE-LINER	Swap is India's social marketplace for swapping, with auctions for verified items.
25 WORDS	Swap lets people across India swap what they no longer use for what they want. Earn Swap Coins for every 5-star swap. Don't Buy. Don't Sell. Just Exchange.
50 WORDS	Swap is an exchange marketplace for India. List something you don't use, say what you'd like in return, and find people nearby who have it. Every listing shows what the owner has and wants, so fair, money-free swaps are easy to find. Every 5-star swap earns Swap Coins, and Pro members can auction verified items, with payment held in escrow. Don't Buy. Don't Sell. Just Exchange.
BRAND STORY	**Everything has value.** Every home has them: the old phone, the unused cycle, the book you've already read. And somewhere nearby, someone is about to buy exactly those things new. What if you could just exchange? That's Swap, a marketplace built on a simple belief: value doesn't need a price tag. List what you have, find what you want, and agree on a swap that works for both of you. Fewer things wasted. More things used. And two people who both walk away happy. **Don't Buy. Don't Sell. Just Exchange.**

PRO SELLERS NEW	Verified. Bid on. Sold. Your gear deserves an auction.
LIVE DROPS NEW	Ten minutes. One watch. Fastest fingers win. 🔴

NEXT STEPS

1. Founders confirm the two open decisions on page 2 (launch mode and auction timing).
2. Design: homepage (Part 05), Have/Want card (Part 12), listing flow and offer flow (Part 10), mobile first.
3. Counsel reviews the Part 13 legal set while design is in progress.
4. Launch Mode B in one city, seed listings, then switch to Mode A.
5. Phase 2: sign a payment partner, train the verification team, then open Pro auctions (Part 08).
6. Phase 3: switch on Swap Coins, Women's Circle, the Pro Plus studio, calls and Swap Ads (Parts 16–21), each after its legal page is live.

Set `EDITION` to `"app"` or `"web"`. Web-only items carry a `webonly` class. In the app, those routes show a card: “This is on the Swap website” with a link.

Age rules

Who	Can	Can't
Teen account (15–17)	Browse, like, comment, follow, chat; offer swaps and ask for items; join groups and events; earn Swap Coins; join Women's Circle; **watch** live auctions	Bid, buy or sell by auction · Pro and Pro Plus · draws, giveaways, challenges, mystery boxes · creator studio · calls. **Sees no ads.**
Adult account (18+)	Everything their plan includes	—
Under 15	Can't sign up.	

AGE IS A SIGN-UP RULE, NOT A SWITCH

Age comes from the verified date of birth at sign-up. There is no age toggle anywhere in the product. Teen tips appear in chat: “Meet only in busy public places, and take a parent or guardian with you.”

DPDP ACT 2023

Under-18 accounts need verifiable parental consent, no behavioural tracking and no targeted ads. Contracts with minors are void under the Indian Contract Act 1872, which is why every money feature is 18+.

18+ gate	MODAL COPY

All prices are example pricing. GST applies. Publish Pro Terms & Refunds before taking any payment. Pro membership must never raise the trust score.

PART 17 · NEW IN V4

Swap Coins & Women's Circle

Swap Coins reward good exchanges, and replace cash when a swap isn't even.

Rule	Detail
⭐ **Earn**	Every swap rated ★★★★★ earns **100 coins**.
🔓 **Unlock at 1,000**	With 1,000 coins or more, members can add coins to swap offers.
⇄ **Swap with coins**	Have a camera but want a motorbike accessory worth more? Offer the camera plus coins, or coins on their own if you have enough. The offer form shows a coins field once unlocked.
🚀 **Future**	Show only: "Swap Coins as a digital currency. Stay tuned." No dates, no details.
Where coins show	Top bar pill (mobile), nav rail chip, the Coins page and a gold coin card on your own profile with an unlock meter.

Women's Circle

When two verified women or girls finish a swap rated ★★★★★, both get **+50 bonus coins**: 150 per swap instead of 100.

- **Joining:** from the Coins page. A quick selfie check matched to ID. The ID image is deleted after checking.
- **Badge:** "♀ Women's Circle" on the profile, opt-in. Chats with another member show "♀ Circle swap · +50 bonus coins".
- **Teens:** girls aged 15–17 can join; coins have no cash value, so no money is involved.

Coins copy	FINAL
EARNED TOAST	★★★★★ swap with {name}. +100 🪙 / +150 🪙 (Circle bonus)
PROFILE CARD	Swap Coins {balance} · Unlocked for deals / {n} to unlock · +100 per 5-star swap →
LEGAL LINE	Swap Coins are rewards inside Swap. They have no cash value and can't be bought or sold.

KEEP COINS OUT OF REGULATED TERRITORY

Never sell coins, pay them out, let them be traded for money, or promise value growth. That keeps them a loyalty reward rather than a prepaid payment instrument (RBI PPI rules) or a crypto-asset. Get legal advice before any "digital currency" step.

CONFIRM BEFORE LAUNCH

A women-only bonus is a promotional benefit. Counsel should confirm the eligibility wording and verification method, and the policy for non-binary members.

PART 18 · NEW IN V4

Pro Plus creator studio & calls

The Create button opens one page. Everyone gets the swap tools; Pro Plus members (18+) get the studio.

Studio tool	What the host sets	Rules
🔨 **Auction**	The Part 08 auction flow	Verified items only
🎟️ **Lucky draw**	Prize, category, winners (1–10), free ways to enter (follow, comment, share), ends in 1/3/7 days	Free entry only. Swap picks winners at random and shows them on the post.
🎁 **Giveaway**	Item, category, how the winner is picked (random, best reason why, first to ask), end	Free entry only
🏆 **Challenge**	Title, task, prize, judged by (community votes or host), category, end	Won by skill or effort, never chance
📦 **Mystery box**	Theme, category, items inside, **minimum value** (₹200+), boxes available, what it's swapped for	Swapped for items, never sold. Host confirms contents are legal and worth the minimum. Swap may check the box.
🎬 **Video**	Video file, title, category	Up to **2:00**. Longer files are refused: “That video is 2:10. Videos can be up to 2:00.”

Voice and video calls

- 📞 and 🎥 buttons in every chat header. Pro Plus and 18+.
- Ringing → connected timer · mute · camera on/off (video) · speaker (voice) · end.
- A call note is added to the chat: “📞 Voice call · 0:42” or “Cancelled”.
- Calls stay inside Swap; phone numbers are never shared. Report and block are available in the call.

BUILD NOTE

Real calls need a WebRTC provider with TURN servers, a push service for ringing, and storage of call metadata only (no recordings). The current build shows the call interface without sending audio or video.

PART 19 · NEW IN V4

Draws, giveaways & the no-lottery rule

A request to run lottery-style selling was reviewed and declined. Swap uses free-entry alternatives that create the same excitement legally.

WHY NO PAID LOTTERIES

Under the Lotteries (Regulation) Act 1998 only state governments may organise lotteries (Kerala runs its own state lottery); a private platform cannot. Paid entry for a prize by chance can also fall under the Prize Chits and Money Circulation Schemes (Banning) Act 1978 and Kerala gaming law. So: **no ticket sales, no "pay ₹X for a chance", no coins to enter.**

Draws page section	How it works
Weekly free draw	Entries come from free actions: list an item, complete a swap, invite a friend, daily check-in. Random winner, shown publicly.
Business giveaways	Local businesses sponsor prizes for free entry. Marked as sponsored.
Skill quiz	Answer a question correctly to win. Skill, not chance.
Mystery box swaps	Swap an item for a sealed themed box with a guaranteed minimum value.

Every draw links to the Draw & Giveaway Rules page. All of it is 18+.

PART 20 · NEW IN V4

Community: events, groups, Bike & Car

Events

Swap meets, fairs and live auctions, online or in person. Members can create an event, RSVP and see attendees. Live auction events link straight to the auction.

Groups

Topic communities with their own feed, listings from the matching category and linked events. Members can create a group. Examples: Plant Swap Kochi, Kochi Riders Swap.

New category: Bike & Car

Allowed	Not allowed at launch
Helmets (ISI marked), riding jackets and gloves, dash cams, phone mounts, tank bags, car accessories, tools, spare parts with proof of ownership	Vehicles themselves (need RC transfer, insurance and RTO checks), number plates, airbags, anything that defeats emissions or safety systems

Category order: All · Electronics · Books · Sports · Home · Fashion · Hobbies · Kids · Bike & Car. Icon: 🏍.

PART 21 · NEW IN V4

Swap Ads platform

Local businesses advertise to people while they swap, bid and browse. Every ad is reviewed and labelled “Sponsored”.

Placement	Where	Example CPM
Feed	A card between posts	₹80
Story	A full-screen story in the stories row	₹120
Side rail	Right column on the website	₹60
Auction	Inside the Auction House	₹150

- **Ads Manager (website only):** create a campaign (business, headline, image, call to action, placement, budget, area), pause, resume or delete, and see impressions and clicks.
- **Never shown to teen accounts.** No targeting by sensitive data.
- Ads follow the ASCI Code; claims need evidence. No ads for gambling, alcohol, tobacco, crypto or prohibited items.

CONFIRM BEFORE LAUNCH

CPMs are examples. Ad payments need GST invoices, and ad revenue must stay separate from SwapSafe escrow.

PART 22 · NEW IN V4

Profile motion & futuristic details

4-second motion profile

Element	Behaviour
Profile picture	Moves gently inside a spinning neon ring (cyan → violet → pink → gold) on a 4-second loop.
Cover	Flowing gradient, floating swap icons and a light sweep, all on a 4-second loop. Labelled "▶ 4s motion".
Own uploads	🎬 buttons on your own profile. A video plays only its first 4 seconds, on repeat, muted. A photo gets a slow 4-second zoom. Max 25 MB.
Reduced motion	All loops stop and videos pause when the device asks for reduced motion.

BUILD NOTE

Moderate uploaded profile clips the same way as listing photos. Keep the first frame meaningful, since it's what shows when motion is off.
